

MEA / DJ / TECHNICAL ADVANCE

A clear setup. A focused set.

PERFORMANCE PROFILE

Artist: MEA / Performance: DJ set / Genres: House and Tech House / Party: one artist

BOOKABLE FORMATS

01	CLUB	House / Tech House / progressive late-night trajectory
02	OPEN AIR	House / Tech House / broader outdoor trajectory
03	PRIVATE	bespoke direction adapted to the event

PROMOTER ESSENTIALS

- Stable, level DJ booth with safe performer access.
- Booth protected from the audience, liquids and weather.
- Professional stereo PA sized and tuned for the venue.
- Stereo booth monitoring with independent level control.
- Reliable grounded power at the booth.
- Drinking water available from soundcheck through performance.

02 / PRODUCTION HANDOVER

Advance before arrival.

PLAYBACK AND MIXER

The promoter supplies the house playback and mixer system. Please send the exact equipment list, booth dimensions and a stage photo during advance. Final equipment models are confirmed in writing before the event. MEA travels with personal headphones and performance media.

SOUNDCHECK AND CHANGEOVER

Provide line check or soundcheck access where the event schedule allows. Mixer, monitor routing and playback must be fully tested before artist access. For changeovers, keep the booth clear and preserve an uninterrupted master output.

RECORDING / STREAMING

Any professional recording, broadcast or livestream of the set requires written approval before the event. Short promoter social clips are welcome when they respect artist and audience consent.

ADVANCE CONTACT

EPK and booking coordination
contact@7agency.fr

This technical advance is the current promoter-facing production baseline for the MEA DJ set. Event-specific changes must be confirmed by email.
